

THOUGHTLESS HOG FEEDING RUINS GOOD BACON QUALITY

Toronto. The following interesting article is published by the Industrial and Development Council of Canadian Meat Packers is particularly opportune at this time when so many farmers are giving attention to the matter of raising hogs, apparently much may be done by the farmer to make same profitable.

During the past few years Canadian hog producers have been able to contravert themselves on the "hog improvement" that has been made in the quality of their hogs and pork products. Packers have been glad to join in acknowledging the full this improvement.

I mean that producers and packers were enabled to supply the demand for fine quality bacon in a great extent case.

But throughout this whole period it has been evident that much more attention was being paid to type and breeding than to feeding and marketing in the proper condition and at the most desirable quality (it appears impossible to do this) to realize that consumer demand is definite, clear-cut and exacting. It will not take a producer from the producer's stand because that is what he has to do at the time or that he finds it easiest to supply.

In the pork trade there are two requirements of consumptive demand. The one relates to weight of the carcass, the other to quality of the meat. This demand is almost constant. The consumer is an almost constant demand for a certain percentage of Whitehead side weighing from 15 to 16 pounds, another constant percentage for side of fifty to sixty pounds and another constant percentage for side of sixty to sixty-five pounds, and so on. In the domestic market certain percentages of the total product of hams or bacon of specified weights are definitely required. A percentage of the total required to twelve pound hams, another percentage twelve to fourteen pounds, etc. Similar weights apply to other cuts.

In the same way there is definite demand as to the fatness of the carcass and the amount of fat. The bulk of the trade wants lean, but not too lean, meat. Another section requires a somewhat fatter, but not too fat, meat, to disregard this demand brings heavy penalties on the consumer.

It appears difficult for the producer to grasp these facts or to apply them to his production methods. The result is a varying supply with which to meet a constant demand. The producer is inclined to view it as varying demand and to complain that he never knows what the market does want. But the market does want a certain percentage of the total. When the producer is sending to market a certain percentage less than the percentage required by the trade that absorbs this product, there is a demand for these hogs. When the producer is sending to the market more of the heavier weight, even though not over fatness, than is demanded, he is wanted by the trade using such weights of product, it is the over-supply. No change is required, that depresses the price of cuts from hogs of these weight. When the producer is sending to the market extra fat to an excessive percentage of the heavier weight hogs the re-

While driving to Calgary 8 Lb. on collided with a car on the highway putting his car out of action. Fred Anderson happened along and brought him back to Strathmore. No one was injured in the accident.

A special meeting of the Women's Institute was held in the Hotel Room last Tuesday and after the regular business was attended, the members joined hands around the table and sang "The Lord's Prayer" after which Mrs. J. W. Taylor presented with a guest, two members in making a birthday. A social hour was spent by the members in playing a card game. Refreshments were served and of delicious dishes.

At a card party of the Women's Institute last Tuesday March 3rd, Mrs. L. Zerke was unanimously elected as delegate to the Convention held at Lethbridge, March 10th to 18th.

Mrs. Melva Cole of Carleton Place, has been the guest of Mrs. P. Bessie for the past week.

Gene Giroux finding that he could spare a few days away from his home in making a tour of the province, he is attending the tractor show at Calgary, brushing up on all the new pieces of farm power.

An outburst from identified "thief" who held him up "by the way" he was caught. It was a rate guide. The Rev. Dr. Phillips Brooks was being wronged across a street by a woman. He said, "You're an angel," said the Doctor. The woman declared he was wrong and said, "You're a thief!"

The Doctor replied: "You swear very much like one of my church members."

ANNUAL SPELLING MATCH TO BE HELD FIRST MAY

At a recent meeting the new Valley Local of the A. T. A. arranged their plans for the annual Spelling Match. The contest is to take place in the Strathmore Memorial Hall on Friday, May 1st.

It is hoped that the majority of the rural schools of Strathmore and surrounding districts will enter the contest.

The main objective of these contests on other occasions has been their financial gain. It is anticipated this year by the rearrangement of some competitions and other matters in the hands of the executive that the contest will be carried out in a more profitable manner.

All schools interested are asked to note that all entries are to be in the hands of Mr. J. McKenna of Strathmore, the Secretary, by Saturday, April 25th.

The following grades will be provided in the contest: 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, and a combined team from grades 10 and 11.

In order to give the rural schools an even chance with the town schools, the following condition applies: The maximum number of pupils in a team is four; if a rural school possesses less than four pupils in a grade, the team may consist of one or two pupils.

Two cups are open for competition, one going to the winner of the 7th grade, the other to the winner of the 10th and 11th grades. The winning team in each grade will be given a certificate and a trophy.

Little can be said except that the contest is a very profitable one and no doubt will be white light in the hands of Mr. McKenna as chairman of the contest. The contest is a very profitable one and no doubt will be white light in the hands of Mr. McKenna as chairman of the contest.

There was a good attendance in the Strathmore Community Hall last Friday night for the annual Spelling Match. The contest is a very profitable one and no doubt will be white light in the hands of Mr. McKenna as chairman of the contest.

SPORT NOTES

INTERNATIONAL SPORTS
IN CHINA

More than 20 nationalities gathered in the famed International Settlement of Shanghai have made it possible for this city to more than live up to its claim of the distinction of being a great world international sports center. Shanghai's cosmopolitan atmosphere has been well advertised by tourists who stop over there, but few are aware of the position this city holds in the world of sports.

English, Scots, Americans, French, Japanese, Germans, Russians, Indians, Portuguese, Irish, Poles, Italians and practically every other nationality on the face of the earth have athletic teams of some description in action here, whether it be one of the city's numerous outdoor fields or one of the spacious indoor courts.

Ideally located on the central coast of China and in a temperate climate, Shanghai's distinct seasons of the year permit just about every branch of known sport. The foreign population in the settlement here, gathered from the four corners of the globe, is given the opportunity to witness or participate in the favorite pastimes learned back in their old homelands. Many French or whatever the case may be.

A Meeting Post of World Sports is in other places of the world. The internationalism in Shanghai carried out so completely as in the realm of sports. No fewer than 20 different sporting pastimes in amateur competition have made this city a meeting post of world sports. Should they so desire, the tourists who took Shanghai in their wanderings might witness any number of games which they never thought existed. Add to these amateur bands of sport numerous professional games that run from season to season and you begin to realize what versatility in sport coverage can mean.

Soccer football headlines the long list of popular sports seen regularly in Shanghai. This is closely followed by Rugby, basketball, hockey, polo, hand court and lawn tennis, track and field. Baseball is holding its popularity, while American football is growing by leaps and bounds. The Pacific Region of the United States Marine Corps stationed here produces strong gridiron eleven, and has found it difficult to find worthy foes in this rugged American sport. As a result, numerous marine Rugby teams have been organized, and the "Yanks" have more to be desired than their English friends, recognized as the leading exponents of the game.

In addition to baseball, cricket and numerous aquatic sports are the chief summer pastimes. One finds swimming, yachting, water polo, rowing, lacrosse, basketball, volleyball, golf, bowling, rifle and pistol shooting, lawn bowls, hand ball, etc. from which to choose his competitive entertainment. And bring up the rear are bicycle racing, Marathon running and Marathon running.

In view of the fact that the British summer other nationalities in the International Settlement, it is quite natural that the English in finance should predominate in sports as it most certainly does in the city's business and commerce. Life, soccer, football, Rugby cricket and hockey are the most widely played outdoor games and will likely continue to do so for many years.

Basketball is Very Popular. Of all the sports introduced in Shanghai, basketball is undoubtedly the most popular. The Chinese especially have taken to this fast indoor game. These standards are rapidly improving along with more efficient officiating. At present there are 20 basketball teams here competing in an open league here. A majority of the games are played at the "Foreign Y.M.C.A." and the interest this season is running high.

The Public Recreation Ground, which covers a large area inside the race track of the Shanghai Race Club, located in the heart of the city, is the usual venue of the greatest activity during the week end. Here on Saturdays and Sun-

days the devotees of the different branches of sports make their headquarters. More than a half dozen games are in progress at the same time.

As one enters the entrance gate on Nanjing Road near the "New World," he sees a large crowd of men around a soccer field, watching a game between a British Army eleven and a civilian club. To the American who visits the leisure hour ground for the first time, he is surprised to find no stands provided for spectators. The sports fan is forced to stand through the game, and if the time of one performance he may walk on a short distance to another field to witness another engagement.

Further on he finds another soccer team, and just across on an adjacent field is a hockey game in progress. On the opposite end of the grounds are several Rugby fields. On these Scotland, Ireland, England, the United States Marines, Shanghai police and many other teams battle for supremacy.

Shanghai Keen for Sports. Farther down toward the south end of the grounds another soccer game is under way. This is probably a fixture of the junior league, as most of the players are youngsters, and the standard of play is not as high. Leaving the youthful flagettes, one comes to the polo ground, where another Rugby game is in progress. The British position has a large following in Shanghai, and there is an important series between Shanghai, Hong Kong and Tientsin.

In small adjacent fields are seen hockey contests for the center and Shanghai girls are as keen for sports as their sisters elsewhere in the world. Hockey, basketball, tennis, swimming and table tennis are but a few of the popular games local women participate in.

In addition to these fields of sports, there are the more intricate race course, one of which he takes to the Shanghai Cricket Club and the other to the Shanghai Recreation Club. The grounds are usually occupied by major sports events during the week end.

The ground near the entrance is turned into a baseball diamond, during the summer months. To the American national pastime is added with enthusiasm by American "exiles." This is the home ground of the Shanghai Amateur Baseball Club, the members of which are Chinese, American business men who are reluctant at leaving their gloves. Baseball is played here by the United States Marines, American business men, Japanese and Chinese. The Chinese learn the game in college here.

Major soccer contests are staged at a huge stadium in the western district. Upward of 15,000 spectators have been known to turn out for a big game. The Cantone, an other big air arena, likewise draws a large share of sporting events.

With this array of sporting talent, Shanghai has been able to reduce into the whole of Asia the sports of the world. Games which have grown into popularity here are in turn carried on to other local cities and into the interior. Local enthusiasts have played a major part in making Shanghai the gateway to the Far East from the standpoint of competitive sports.

HEARD ON THE STREET

Managing Editor: You say you've never worked on a newspaper? What do you think you can do for us?

Miss Flapper: "Why, I heard you needed someone to take charge of the makeup."

Herb Ellis: "Do you think I could borrow money on the strength of my honest face?"

Carl Brown: "You might—but you'll pay me back."

Old Gen: (to Negro Boy): What is your name little fellow?"

Negro Boy: Well, boss, every where Ah goe dey give me a new name, but mah maiden name was Moses."

"Nurse," said the Boston mother to her governess, "Miss Wade seems disturbed. Foster don't tell him any more hogchillin' stories. 'I didn't, madam. I just mention that Bacon may have written some of Shakespeare's plays'."

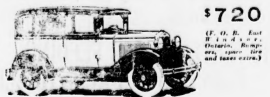

Mother: "Now, Fannie, you must wash your hands before you get ready for the party."

Son: "But Mamma, you said it was informal."

An engagement of a beautiful local fishing scene has just been completed by an Edmonton staid. It depicts Vaughn and Bartlett, leading a big "cut" from the North Fork river and shows Bartlett holding up the tail end of a two ton trout to prevent its falling on a more favored small fish hooked and being landed by Vaughn. Since learning of this big fish, Gordon Stevens and Doc Barbour have offered a supply of baskets from the factories with dimensions equal to an ordinary C P R boat car, while the Blairmore Iron Works is busy turning out boats from moulds used in the manufacture of boats for the latest auto steam boats. Blairmore Enterprise.

Little Keen for Sports. Aunt Het says: "A man means like a dog when he's still a little, but he expects his wife to make home cheerful and sunny; if every inch of her hurts like a torchcase."

GOVERNMENT ANALYST
GIVES REPORT ON
ALBERTA BEERS
Quality is Better than Pre-War

Rumors have reached us regarding the Quality of Alberta Beers and in order to settle the question, samples were taken out of Distributors Ltd. stock and sent to Dr. James A. Kelso, Provincial Analyst, University of Alberta. The following four questions were asked of Dr. Kelso:—

- (1) Is the Beer sufficiently matured?
 - (2) How does it compare in quality with the Alberta Beer analysed by you in pre-war days.
 - (3) Is the Beer wholesome in every way and free from all foreign substances?
 - (4) What comments have you to make on the keeping qualities of the Beer submitted?
- THESE QUESTIONS WERE ANSWERED BY DR. KELSO AS FOLLOWS:

- (1) All samples are, in my opinion, sufficiently matured.
 - (2) In my opinion all of the Beers are of better quality than pre-war products, which was often cloudy. Beers tested by me during past year are much more uniform in strength, extract, etc. than those before the war.
 - (3) I would consider the Beers wholesome in every way and free from deleterious constituents.
 - (4) Judging from the forcing test all samples of bottle goods tested are efficiently pasteurized. The freezing test shows the Beer of satisfactory keeping qualities, with proper elimination of such proteins as are thrown out of solution by low temperatures. The draft Beer, not being pasteurized, could not be subjected to forcing or freezing test, and I consider samples of such Beer properly matured and of satisfactory keeping qualities if kept under correct conditions.
- "The bottle liquors, with exception of the Porter and Stout were given a forcing and freezing test. This is done by keeping the Beer at temperature of 90 to 100 degrees for one week, then freezing solid and thawing in chilled ice. In all the samples there was neither cloudiness or any sediment, tests showing perfectly clear."

Positive proof that no artificial or foreign ingredients are used in the manufacture of Alberta Beers. Highest quality materials only, scientifically combined by master Brewers.

The original report is on file at Distributors Limited, head office, Calgary, and is open to public inspection. Space only prevents us from publishing the report in detail.

PREMIER BENNETT FACING ECONOMIC DIFFICULT PROBLEM

Premier Bennett will be facing the economic "saga" of his political career when he turns his attention to a multitude of demands for tariff revision says the Toronto Globe. He will be asked to back up the protection on agricultural products as well as manufactures, a complex task for him, but one which he is obliged to carry out within the restrictions he imposed himself providing that prices to the consumer must not be raised. It will be an amazing feat if he finds a way to raise tariffs on agricultural products and still maintain the same selling prices. Yet this is what is expected from him.

And what good will it do any one if the prices of farm commodities suddenly drop, the cost of production in many cases, are not raised by reason of whatever action is taken? Theoretically, it is to be expected that the government will be able to keep its own costs down by mass production, provided it can get markets for its large scale output.

The purpose of a high tariff to level out competition is important and the home market to absorb domestic production. In Canada this means that the half of the country getting a living from the farm must consume its purchases chiefly to be made in Canada goods.

It is worthy, then, that it implies that the local population must have a sufficient income to make the purchases. The income is now lacking. How is Mr. Bennett going to provide it by raising the tariffs?

The attempt to create a self-contained country carries the idea that there is to be a complete economic independence. The standard income among all classes of people, that the farmer's income is to be a standard income. The farmer's income is to be a standard income. The farmer's income is to be a standard income.

The farmer's income is to be a standard income. The farmer's income is to be a standard income. The farmer's income is to be a standard income. The farmer's income is to be a standard income.

PAYING TAXES AND STILL BE HAPPY

Paying direct taxes, is one of the most perplexing problems which the average taxpayer has to solve.

The reason is that it is an accumulated liability and payment is usually put off until the last date of payment is reached. This is particularly marked during periods of depression.

Paying taxes is to be made easier for the property owners of Knoxville, Tenn. The method devised will keep a steady flow of revenues coming into the city treasury and yet the drain on the taxpayer to be lightened by allowing him to pay in quarterly installments.

To those who are able to pay all of their assessments in advance a discount is to be granted, but these economists estimate that from 75 to 85 per cent of taxes are paid by borrowing money it can be expected that there will be many at Knoxville who will avail themselves of the installment option.

Remembering that in the event of delayed payment of taxes, the amounts added to the tax bills imposed by penalties for late payment within the prescribed time limit and the interest on loans run into large sums.

But it may be that the Knoxville idea does not go far enough. Why cannot the tax payment be divided into twelve installments and thus be made increasingly easy? This would be met in the same manner as the monthly telephone, lighting and gas bills. Perhaps the amount could be deducted in various ways from the taxpayer's income.

As a start, however, the Knoxville method seems to be a better one than many municipalities. This has been attracted considerably by the savings account plan.

At a meeting, taxes at delinquency appears especially so. Paying made easy that is consumption devoted to it.

is inadequate. It is not certain that greater production will raise the margin between cost and selling prices to the primary producer. It is certain, however, that no amount of tariff adjustment will help the producer of the chief staple product, wheat, and that the wheat situation in Canada is not a good one.

If Mr. Bennett wanted to put his finger on the wheat problem, he would find it a most profitable one. The wheat situation in Canada is not a good one.

The wheat situation in Canada is not a good one. The wheat situation in Canada is not a good one. The wheat situation in Canada is not a good one.

The wheat situation in Canada is not a good one. The wheat situation in Canada is not a good one. The wheat situation in Canada is not a good one.

:- "DONNA MYNE" :-

BY LUCILLE LAURIE, CARLELAND

The following clever story, written by Mr. W. L. Laurie of Carleland, will be published in installments during the next few weeks in the Standard.

Donna Myne was a heavy girl. Her slight shoulders trembled and there was a sad dejected smile about her. Life had been hard for her in the last three months; so hard that at many times she thought of ending it all had ended her mind. However, Donna was not coward. She had the unshakeable spirit of bravery that had been her father's.

Effectively Donna had her mind dwell on happy thoughts of past years. When she was only two years of age her mother had died. Her father was never quite the same as he had been before his wife's death. In his grief he had invited all his past up upon his little daughter. What a father he had been! He had taken the place of mother and brother in the heart of Donna. In return Donna adored her big, fat, loving father who would do anything or everything for her, providing it was for her good. As she grew older they became inseparable.

Swimming, skating, camping and doing all the other things that young girls usually like to do, they did together. Donna's father, her mother's father, was a man of many friends. It was her father who had invited her to live with him in the little cottage that had been her father's.

Effectively Donna had her mind dwell on happy thoughts of past years. When she was only two years of age her mother had died. with a raging fever. So great had been her grief that doctors had feared for her mind. However, Mr. Myne, always a specialist, had let her worry. However, the little cottage had been heavily mortgaged and there were bills that were unpaid. When he had been living he had always managed to give Donna the best of everything, but when the funeral expenses had been paid, and the bill collectors satisfied, only the small sum of five dollars remained to her credit.

Without the comfort of friends or relatives, for she had none in this big city, Donna had not only had to find a way to live, but she had to find a way to secure employment. Her father had taught her short hand and she typed, but that was all she could offer to any firm, which she soon found was not enough. The unpaid mortgage and the unpaid bills remained to be paid.

HEARD ON THE STREET

Tony Oregan, is whispering a new city as follows:
How dear to my heart are the years that have gone by,
When fond recollections presents them to view;
When you could go to the cellar down under the grove,
With your little tin bucket and get your home brew.

There is a movement on foot to supplant the old fashioned drinker with the new and improved. You see, when the train lurches, some of the patron would prefer to find something in their laps more attractive than a bowl of soup.
